

## Quick Wandering Action Plan

### Step 1 - Confirmation

Don't panic! Confirm if it's an emergency, check if they're nearby

- Check garden
- Check with neighbours
- Check house
- Check front of house/street
- Check any outbuildings/sheds
- Check nearby places they've wandered before

### Step 2 - Response

If you can't find them, take the following actions quickly and calmly

- Call the police
- Alert any nearby caregivers
- Log in to your tracker/s
- If tracker shows a location:*  
Inform police immediately
- If tracker has call feature:*  
Try calling the wanderer
- Find your TechSilver Action Plan, ready for the police*

### Step 3 - Details

Fill in the details below in advance

# Reacting & Responding to Wandering

## What next?

The quick action plan is a great way to respond initially to a wandering incident.

However, there are some extra steps you should take now to ensure you and any caregivers are able to take advantage of this plan in an emergency:

**Step 1 -  
Print/Save  
Multiple Copies**

**Step 2 - Give to  
caregivers**

**Step 3 - Use it**

We recommend **distributing copies** to the **family members, friends or caregivers** who will be most likely to respond to a wandering incident. Each person will then have a much easier plan for responding to wandering in an emergency.

You should **print multiple copies**, and also **save a digital version** of the document in several places. For example, save one **on your computer** and one on **your mobile phone**.
